PRIMERS, SEALERS AND UNDERCOATS

AQUA PRIMER SEALER UNDERCOAT

Nippon Aqua Primer Sealer Undercoat is a water based one step pre-coat formulated with special acrylic polymer for the following excellent properties:

- Alkali and efflorescence resistance
- For interior and exterior application on masonry substrates, timber and metal surfaces.
- Quick drying

BODELAC UNDERCOAT 9000

Nippon Bodelac Undercoat 9000 is a high opacity and high solid undercoat that will effectively hide the substrate and impart a good film build to the overall coating system. Widely used as an undercoat over timber and metal.

VINILEX 5101 WALL SEALER

Nippon Vinilex 5101 Water-Based Wall Sealer is suitable for masonry surfaces. It is formulated to prevent deterioration of emulsion paints by alkalinity of surfaces. This wall sealer is recommended for use in both interior and exterior plastered walls, ceilings, plaster, brickwork and wall boards. Based on specially formulated acrylic it is designed to provide maximum protection against alkali and moisture, enhancing the performance of top coat.

VINILEX 5170 WALL SEALER

Nippon Vinilex 5170 Oil-Based Wall Sealer contains a superior resin/binder, effective in preventing the degradation of finishing coats by alkaline surfaces. This wall sealer contains a blend of solvents that enables it to penetrate deeply and gives a firm base for subsequent coats.
