WOOD AND METAL PAINT

AQUA BODELAC

Nippon Paint Aqua Bodelac is a water-based modified acrylic gloss enamel paint with low Volatile Organic Content (VOC). This new breakthrough in water-based paint technology is an eco-friendly, non-toxic alternative to conventional solvent-based alkyd paint. Aqua Bodelac is ideal for interior wood and metal surfaces such as doors and window frames. It can also be used with Aqua Primer Sealer Undercoat for trim works in various substrates like masonry, primed timber and metal. Easy to apply, quick drying, and easy wash-up with water, Aqua Bodelac is the excellent choice for a hassle-free paint job.

BODELAC 9000

Let it shine with Nippon Paint Bodelac 9000, the super gloss paint with a bright, tough finish. With its striking, intense colours, this brilliant super gloss enamel paint makes it easy to give metals a warm glow, or wood a cool, glossy finish. Providing excellent coverage and fungus resistance, Bodelac 9000 is perfect for use on primed wood and metal surfaces, both internally and externally.

SOLARSHIELD

Nippon SolarShield is a durable pigmented wood varnish that provides long-lasting protection against cracking, flaking and peeling. It contains a special resin to create a water-resistant and flexible finish that highlights the natural beauty of the wood grain and filters out UV rays. Nippon SolarShield is suitable to be used on all types of new and previously painted wood surfaces.
